Legal and Policy Frameworks Surrounding Drugs in America

Historical Legislation

- Harrison Narcotics Act (1914): Regulated and taxed the production and distribution of opiates and coca products. - Marijuana Tax Act (1937): Effectively criminalized marijuana at federal levels. - Controlled Substances Act (1970): Established

disparities, reducing overdose deaths, and fostering a balanced approach between enforcement and treatment. Each return to *Drugs In American Society* Goode brings something slightly different. New insights appear, previous questions find answers, and understanding deepens without announcement.

In this way, reading becomes less about finishing and more about revisiting. The value lies in the continuity, in knowing that the material is always there when reflection calls for it.
